

Making a Difference with EnWise - Reducing our Environmental Impact

Currently, almost 17 percent of all energy used in Canada goes toward running our homes. Every time we use energy from fossil fuels such as coal, oil and gas, we produce greenhouse gas emissions. By using less energy in our homes, we help reduce the production of greenhouse gas emissions that contribute to climate change and harm our environment.

Getting our home EnWise Approved has been a great experience. We feel good about doing our part for the environment and the future of our children. Plus, we have seen a decrease in our energy bills as well!
Rebecca & Theodore, Toronto

We want to thank our Residential Energy Professional for making us aware of the EnWise Approved Home program. We are now enjoying lower energy bills, even with the recent increases in utility costs. Thank you EnWise!
Mr. & Mrs. Lee

Call us today and book your appointment!

Our Home is

EnWise
APPROVED

enwisepower.com

A healthier and more efficient home with these simple steps:

- ① Understand your home's energy consumption in its current state through a comprehensive home energy evaluation.
- ② Implement energy saving and greenhouse gas reducing solutions recommended by EnWise.
- ③ Receive up to \$10,000 in available federal and provincial government grants and incentives!

By reducing your home's environmental footprint by at least **1 tonne of GHG** your home can be **EnWise Approved!**

We want you to be proud of your efforts, and to support this, EnWise will provide qualifying homes with your choice of a window decal and biodegradable lawn sign!

Wondering how you can qualify? Here are a few ways EnWise can help you save money and the environment!:

Existing	Replacement	Financial Savings	Environmental Savings
15 year old Furnace & AC	ENERGY STAR Furnace (ECM) & AC	Over \$450 per year	1.4 tonnes of CO ₂ per year
15 year old Water Heater	Tankless Water Heater	Over \$300 per year	Over .8 tonnes of CO ₂ per year
R-12 Attic Insulation	R50 Attic Insulation & Air Sealing	Over \$340 per year	Over .85 tonnes of CO ₂ per year
15 year old Fridge	ENERGY STAR Fridge	Over \$75 per year	Over .2 tonnes of CO ₂ per year

*Financial and environmental savings may vary by region and are based on fixed utility costs. Tankless savings include average monthly rental fee of \$15.

Call us BEFORE you renovate and access up to \$10,000!

Are you planning a home renovation or considering energy related upgrades? By working with the EnWise group of companies, homeowners can get access to up to \$10,000 in available federal and provincial grants and incentives.

Benefits of an EnWise Approved Home:

- Reduced environmental impact
- Guaranteed financial & energy savings
- Improved resale value for a more energy efficient home
